

Adding multiple assets

If you have more than one file to add you can choose to add multiple files at a time. These instructions apply to all assets including pages, images, PDF documents etc.

1. Select **New** and choose the kind of asset you would like to add (page, image, file etc.)

2. Select the **Add more** button to the left of the details page and click until you have the required amount of assets you would like to upload.

3. Fill out the details for each asset accordingly and then select **Create**.
